

Courtney Gibson

courtney.gibson@utoronto.ca

Courtney Gibson is presently Director of Operations at OANDA Corporation. He received an M.A.Sc. degree in Computer Engineering from the University of Toronto in 2000 where his research activities focused on the investigation of shared virtual memory models for parallel, distributed computing.

Mr. Gibson has been a lecturer in The Edward S. Rogers Sr. Department of Electrical and Computer Engineering at the University of Toronto since 2000. He has taught the first year Programming Fundamentals course (ECE106), and third year Operating Systems course (ECE344) with excellent feedback from students. Mr. Gibson was appointed an adjunct professor in the department in 2008.
