</tr>
</tbody>
</table>

*** Please refer to the sessional dates section of the 2014-2015 Academic Calendar for a complete listing of ALL important dates/deadlines.

ECE201H1 F
This is a new seminar course for 2nd year students. It introduces the various career pathways within the field of Electrical and Computer Engineering. Instructors from the various areas in ECE will offer a weekly seminar to help students select a set of practical and worthwhile upper year courses for their intended career. This course will be offered on a credit/no credit basis. Credit will not be given to students who attend fewer than 70% of the seminars. Students who receive no credit for the course must re-take it in their 3F session. Students who have not received credit for this course at the end of their 3F session will not be permitted to register for their 3S session.

PRACTICAL EXPERIENCE REQUIREMENT
Have you completed some or all of your 600 hours? If so, make sure you complete and submit the “Practical Experiment Requirement” (600 Hours) form. The form is located on our website. Your supervisor’s business card must be included with the form.

VOLUNTEERS NEEDED FOR STUDENT-STAFF COMMITTEE
Have something to say about your academic experience? Have ideas on how to improve the student academic experience? If you answered “yes” to either of these questions, join the Student-Staff Committee to voice your ideas. If interested, please send us an email at askece@ecf.utoronto.ca. Meeting dates to be confirmed.
