Removing Probation

For example: a student who has an academic status of “**Repeat Probation**” after one session with a weighted Session Average of 60% or better and a CGPA of 1.5 will have a new academic status of “**Proceeding On Probation.**” NOTE: Full-time session means four or more HCEs.
- Part-time Students - Students who are in part-time studies will have probation status removed after **having completed the minimum number of sessions to have grades registered in four or more non-repeated HCEs** with a **composite average of 60%** or greater and a **CGPA of 1.5**.

Upon Graduation

- An academic standing of Proceeding on Probation, or On Repeat Probation will be removed and changed to Pass (or Honours if applicable) at the conclusion of the final session during which all requirements for graduation are satisfied.

*** **TO BE ELIGIBLE TO GRADUATE**, a student **must** attain a weighted Session Average of **60% or greater in their final session**. Any student who does not achieve a weighted Session Average of 60% in their final session (4W), but has attained a weighted Session Average that allows them to proceed to the next session on probation, shall repeat the final session and achieve a weighted Session Average of 60% or greater to graduate.***
