Welcome to ECE!

Academic Orientation 2023
We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.
We understand access to be a shared responsibility between everyone in this space.

We will strive to create an accessible space that reduces the need for you to disclose a disability or impairment for the purposes of gaining an accommodation. In doing this together, we strive to welcome disability, and the changes it brings, into our space.

- Is there anything about the space that we should address now?
- Are there any other access needs that might affect your participation in the orientation that we could also address?

Prof. Deepa’s DOs and DON’Ts
DOs

Treat people with respect

• Refer to your professors as “Professor [LastName]”

• Be polite to staff members

• Respect people’s time, space and values

• Respect yourself
Focus on Competence NOT Confidence

- Competence can *protect* you from getting voted off the island, but confidence will not.
**DOs**

Value Your Mistakes

One of the best things ever said:

“Good judgement comes from experience and experience comes from bad judgement.”

- Learning happens through failure
- Overcoming obstacles leads to resilience
- Take risks
DOs

Manage Your Time

Procrastination  Wasted Time  Stress
DON’Ts

Don’t Take Things Personally

- What happens academically or professionally is often not personal

- Taking things personally leads to “drama” and stress

- Understand that what someone does is because of them, not you
DON’Ts

Don’t Give Up

• Don’t give up on yourself; if you give up, you will surely fail!

• Pick yourself up and try to see things differently

• Quick starts vs. Late bloomers – both good

“It ain’t over till it’s over.”

-- Yogi Berra
DON’T s

Don’t Worry about Conflict

• Conflict is natural; conflict is healthy

• Avoid dysfunctional conflict/situations/people

• Choose your battles

• “politics”/”backstabbing” occurs when at least one party is fearful
DON’Ts

Don’t Be Fearful

• 6 cancers (by Stephen R. Covey):
  • Cynicism
  • Criticism
  • Comparing
  • Competing
  • Complaining
  • Contending

• How do I overcome fear? COMMUNITY

“Fear is the path to the dark side. Fear leads to anger. Anger leads to hate. Hate leads to suffering.”

-- Yoda, Star Wars
